GREEKTOWN CASINO-HOTEL BRINGS WORLD'S FIRST LIVE-DEALER ELECTRONIC TABLE GAMES ARENA TO DETROIT

Synergy Table Games features revolutionary high-energy, interactive approach to gaming

Editor's Note: Images and video of Synergy Table Games are available [here](#).

November 17, 2016 (DETROIT) – Interactive gamers rejoice, Greektown Casino-Hotel is bringing a revolutionary new experience to Detroit. On November 18, 2016, the casino unveils Synergy Table Games, an arena style adventure that fuses high-energy dealer entertainment, live-DJs, pulsating lights and music, social interaction and giant video displays for a modernized approach to gaming. Synergy is the first of its kind in the world.

Located on the upper level of the casino near Fringe Bar, Synergy features automated, video and live-dealer generators for four different game options: Blackjack, Roulette, Craps and Baccarat. It boasts 48 connected play stations with 27-inch video display screens and multi-game capability, all situated in a space reminiscent of a stadium. A massive video wall displays each game's progress and statistics. Players have the option to game socially with friends while messaging one another from their electronic play station, or they can enjoy a solo electronic table game experience.

Greektown Casino-Hotel is the first casino to offer luxury gaming manufacturer Interblock's Pulse technology with live-dealers.

"Synergy is an industry game-changer," said Jason Gregorec, chief executive officer and general manager, Greektown Casino-Hotel. "We are the first casino in the world to combine Interblock's electronic table games technology with live-dealers for a brand new gaming experience. Our guests are going to love this!"

Greektown Casino-Hotel also recently completed a \$70 million renovation, adding a state-of-the-art HVAC system for enhanced air quality, new technology and gaming options for guests, advanced LED lighting throughout the property and beautifully upgraded interiors.
